HOME MADE CLIMATES

FFB 105 DECO FIRES BIO ETHANOL

Features

Table top: This deco fire is suitable for any patio table.

Designed for easy filling: The burner is designed with ease of use in mind. Filling the burner with fuel is as easy as possible and has amongst the easiest way of filling in the whole market.

XL Burning time: The highly efficient burning of the fuel results in extra long burning time. With its burning time of 130 minutes this Qlima Deco Fire has one of the longest burning times in the market when compared to similar models.

Qlima fuel safety: Absorbs the ethanol; no spillage, even when the burner is up side down. Safety assured!

Double safety burner: Creates more safety; the burner contains an extra fuel chamber which captures the fuel e.g. when filling. Spillage is prevented to the maximum!

Qlima absorber: Enhances the fire time: burns 20-30% longer compared to non-Qlima absorber. And makes the flame more evenly.

Tempered safety glass: Provides more safety. The glass can resist temperatures up to 300 °C and sudden temperature decrease (e.g. cold water). And in the unlikely case of falling, the glass will crumble (like car windows). The corners of the glass are rounded for extra safety.

Design: With its modern and stylish design and double-sided glass this deco fire is a contribution for everybodys garden.

Bio ethanol: Bio ethanol fire gives you a warm feeling and creates a good atmosphere.

Extinguishing tool: A matching extinguishing tool is included. The fire can easily be extinguished
